Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 27 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry at first, then rain arriving this afternoon.

Today:
Isolated showers at first will soon clear leaving a dry morning with a few bright spells. Clouding over after midday with patchy rain spreading slowly from the south, although the rain may not reach northern parts of Cumbria until dusk. Maximum temperature 7 deg C (45 deg F).

Tonight:
Cloudy and damp overnight with patchy rain and drizzle and fog over the hills. Some heavier spells of rain will spread from the west at the end of the night. Minimum temperature 4 deg C (39 deg F).

Tuesday:
Cloudy with some spells of locally heavy rain on Tuesday morning. The rain will slowly ease after midday with some drier and bright periods developing late in the afternoon. Maximum temperature 9 deg C (48 deg F).

Outlook for Wednesday to Friday:
Changeable and very windy on Wednesday and Thursday, with spells of heavy rain interspersed with drier, brighter interludes. Drier and brighter on Friday with lighter winds. Mild or very mild.
